AR

Augmented reality, often shortened to AR, is a technology that blends digital information into the real world.  
For more information, please click [here](#) or directly try yourself by scanning the QR code with your phone.

Please scan the QR code below and open on AR-enabled device.

There is a possibility that the configuration will fail. If that happens, please try a different product.

**3D view**

Moves you toward or away from objects in the scene when you drag vertically. You can also zoom with the hand tool by holding down Shift as you drag.

Moves the model vertically and horizontally only. You can also pan with the hand tool: Ctrl-drag.

Turns 3D objects around relative to the screen. How the objects move depends on the starting view, where you start dragging and the direction in which you drag.
